Dear LRDP Planning Committee,

Re: Long Range Development Planning Committee Charge Letter

Thank you for agreeing to serve on the UC Santa Cruz Long Range Development Plan (LRDP) committee. The LRDP is an important planning tool for providing the infrastructure needed to support our mission.

This is a large time commitment for each of you and I am grateful for your dedication to this endeavor. Our goal is to have our plan ready for approval by the UC Regents in 2020. During the process, I ask that you be as inclusive as possible and seek as many different perspectives as you can. It is vital that our plan takes into account the fact that we have an obligation to serve the growing and diverse population of the state of California, while also ensuring we are a good community partner.

I have asked Sarah Latham, Vice Chancellor Business and Administrative Services and Kimberly Lau, Professor of Literature and Vice Chair of the Academic Senate to co-chair the committee. We have put together a group that represents a diverse set of stakeholders. The committee will report up to an Executive Committee who will advise the Campus Provost and Executive Vice Chancellor and me.

I look forward to meeting with you in person soon, where I will offer a framework for consideration as you launch your process. If there is any other feedback or guidance needed of me as you undertake your work, I will be happy to assist.

Sincerely,

George R. Blumenthal
Chancellor
